EXPERIENCE

ANNEXMED CHENNAI – DEVELOPER APR 2024 – APR 2025

- ✓ Develop responsive and user-friendly Logging and registration page using React.js, HTML, CSS, and JavaScript.
- ✓ Build reusable components and front-end libraries for future use.
- ✓ Integrate UI with RESTful APIs provided by the back-end.
- ✓ Assist in creating server-side logic and REST APIs using Node.js and Express.js.
- ✓ Maintain data integrity and assist with schema design under guidance.

GUIDE HOUSE INDIA CHENNAI- JUNIOR DEVELOPER SEP 2022 - JAN 2024

- ✓ Assist in writing clean, scalable, and well-documented code under the guidance of senior developers.
- ✓ Participate in the development of web applications using technologies such as HTML, CSS, JavaScript, react.
- ✓ Fix bugs and issues identified during testing or production.

- ✓ **Continuously learn and improve coding skills, frameworks, tools, and best practices using technologies such as HTML, CSS, JavaScript, React, Node.js, Express, MongoDB or relevant stacks.**

KEY RESPONSIBILITIES

- **Developed and maintained responsive front-end interfaces using HTML, CSS, JavaScript, and React.js.**
- **Built and integrated RESTful APIs using Node.js and Express.js.**
- **Designed and managed MongoDB databases.**
- **Implemented authentication using JWT or OAuth.**
- **Ensured cross-browser compatibility and performance optimization.**
- **Participated in code reviews and team meetings.**
- **Deployed applications on AWS and Netlify.**

PROJECTS

Netflix landing and login page Clone: A responsive clone of Netflix's official landing and login pages with movie details from TMDb API. User authentication via Firebase. User can sign up and watch trailer for particular movie.

Todo-List App: A simple yet functional To-Do List application built using React.js that allows users to add, delete, mark complete, and persist tasks using the browser's Local Storage. This project demonstrates core React concepts like state management, component architecture, hooks, and browser storage integration.

Notes App: A simple functional Notes app built using JavaScript DOM manipulation with localStorage support. It allows user to create, edit, and delete their notes.

Quiz App: A dynamic and interactive Quiz Application built using HTML, CSS, and Vanilla JavaScript, focusing on DOM manipulation for real-time UI updates. The app allows users to attempt multiple-choice questions, tracks scores, and provides final result.
